Hi, sitter! You are a temporary roommate with keys.

Leave this packet on the counter. That is not laziness — it is the plan.

Household name .....

Your stay .....

Welcome, keeper of the house. While we are away, this place is yours to keep boring: **mail in, plants watered, bins out, doors locked**, and nothing on fire. This packet is everything you need for two pages and one minute of reading — the numbers, the check-in plan, the plant list, and the house's small lies, like that door that only closes if you lift it.

THE TWO-MINUTE TOUR

Page 2, the details sheet: emergency numbers up top, then the check-in plan, plants, bins and mail, house quirks, and every lock explained. Trust the orange box.

The counter: this packet's home, next to a **treat-fairness card** for any kids or pets on site. The card is the law.

Your space: you know the room, the towels, and the good coffee. If a fuse blows, the breaker box location is on page 2.

IF WE CANNOT BE REACHED

Our phones ..... *text then call*

Neighbor ..... *next door, kept tabs*

Landlord / fixer ..... *for leaks & broken things*

WHEN SOMETHING LOOKS WRONG

Small oddity: photo, text us. Water or smoke: 911, then the neighbor, then us. Do not climb on the roof. It was already like that, we promise.

END OF EVERY DAY

- [ ] All doors locked
- [ ] Lights off where you go
- [ ] Porch spotless
- [ ] Packet back on the counter

And because it is true: whoever holds the spare-key pouch and a one-page cheat sheet is honestly beloved. When your stay ends, a printable **thank-you certificate** from this pack gets your name on the line and a family's whole gratitude.
